A greener solution for a more efficient performance. Our mid-node 500 kW/250 kWh Battery Energy Storage Systems (BESS) are designed to satisfy a variety of on

What is a Bess all-in-one cabinet? This process integrates key components like batteries, inverters, and control systems into a single enclosure that is safe, efficient, and durable.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications.

The system comes with one 500kW independent Power Conversion System (PCS), and the PCS is placed in an independent cabinet. It uses a 3L+PE outgoing line method, and its monitor shows the

SCU BESS (Battery Energy Storage System) is containerized Integrated all-in-one system built with LFP Battery system, power conversion system designed for either grid connected or totally off grid

The commercial energy storage includes advanced inverters and power conversion systems (PCS) to ensure compatibility with both on-grid and off-grid
